WOODSTOCK WELCOMES SIR WILFRID

Four Immense Meetings In
One Day For Liberal
Chieftain.

BIGGEST DAY OF ONTARIO TOUR

Laurier Is Paid Magnificent
Tribute by People of
Ontario.

By Bulletin Leased Wire.
Woodstock, Oct. 4.—Such four
immense meetings in one day,
three bands, excursions far
several directions and crowds that
filled every hall at which he spoke,
Woodstock was the scene of a big
demonstration today on the occa-
sion of Sir Wilfrid Laurier's visit.

It was a magnificent tribute to
the Liberal chieftain and showed
the warm place he holds in the
hearts of the people.

The whole day was a demon-
stration rather than a political
effort for at none of the meetings
did Sir Wilfrid make any lengthy
speech, leaving that to his lieute-
nants.

The former premier arrived at
Woodstock at one o'clock and was
greeted by a crowd of several
hundred people. He went first to
Woodstock college where he
addressed the students. For the
rest of the day he was being
whisked from one hall to another
for addresses, except for a brief
time later in the afternoon when
he had some rest in his private
car.

The evening meetings were the
largest and most demonstrative.
About seven o'clock a torch-light
procession was formed, which,
with bands, flags and torches
escorted Sir Wilfrid to the rink
where he spoke first. It was late
in the evening when he reached
the other halls, where 1,500
people had been listening for
an hour to Hon. Geo. P. Graham.
This speech concluded the day's
program, which was the most
strenuous of any of his present
tour.

At the evening meeting Sir Wil-
frid was called upon to succeed
Hon. Graham and speak in favor
of the Liberal party. He refused
the honor at first, holding that being
of the minority in race and religion
it would not be advisable for
him to hold the supreme post, but
the party had told him to go ahead
and he could say that no man had ever been followed with
more enthusiasm.

"I have always been a Liberal
upon the lines of English Liberal-
ism," he said, "and it is upon
these lines that I will always stand."

His references to the trade is-
sues were brief. He repeated his
declaration that the home market
was always the best, but held
that there could be found other
markets as well for the products
of the Canadian farms.

Then turning to the naval ques-
tion, he asked, "What is the pol-
icy of the government on this ques-
tion? The Lord knows it, for they
have not any policy."

The development of the naval
idea in Canada was briefly sket-
ched.

"I do not like militarism of any
kind," he said, "but every nation
has to look after its own defenses
and have land forces and naval
forces. Let the British govern-
ment prepare their scheme and it
shall be judged by us upon its
merit and not by its cost."

I do not like to increase the dif-
ficulties for the administration of
these matters for they are of too
great a consequence. We have
our duty before us and we shall
endeavor to perform it."

ARRIVES IN MONTREAL AND IS DISAP-
POINTED THAT EXECUTION IS NOT
TO TAKE PLACE.

Montreal, Oct. 4.—Sir George Cumming, the self-confessed murderer of his wife, whose execution had been set for today and whose sentence was commuted, has been transferred from the death cell in the Montreal jail to St. Vincent De Paul Hospital, where he will spend the rest of his days working in the carpenter shop. A man who refused to give his name, but who is known to be from Alberta, for the purpose of hanging Cumming. He had no funds and the only source of his income was a small pension he had commuted, and when told that Cumming was not to hang, expressed his disappointment at losing a job.

GERMAN AIR MAN KILLED.

Hanover, Oct. 4.—Another German air man, August Birkner, was killed in a fall from a biplane around the aerodrome here in his monoplane and while making a curve one of the wings struck the ground, tipped too far and caused it to crash to the ground from a height of fifty feet.

HE PAID MONEY FOR EXPLOSIVES

IS CONCLUSION OF DISTRICT ATTORNEY REGARDING RYAN IN DISTINCTION CASE.

By Bulletin Leased Wire.
Montreal, Oct. 4.—Extracts from a little green checkbook in which the executive board of the International Association of Bridge and Structural Iron Workers is keeping its money, kept an account of the money paid out for dynamite jobs were read at the meeting of the workers in the dynamiting cases today.

District Attorney Ryan, who took the lead in the dynamiting case, and regularly appropriated money for the expense of the explosives. The checks signed by President Frank M. Ryan, of the state, read: "Ex-
penditure for dynamite jobs were read at the meeting of the workers in the dynamiting cases today."

It would be shown, Mr. Miller said, that Orville E. McManus, who had signed the checks, had agreed that "the whole system of dynamiting throughout the country were to be paid for by the workers in the dynamiting cases today."

It would be shown, Mr. Miller said, that Orville E. McManus, who had signed the checks, had agreed that "the whole system of dynamiting throughout the country were to be paid for by the workers in the dynamiting cases today."

It would be shown, Mr. Miller said, that the finances of the iron workers were juggled so that the funds were not available to the workers.

When McManus had been brought up to show his papers in Peoria, Ill., he said, "I have friends on the police force here. In fact, I control the police force."

The first witness probably will be heard Monday.

Committee.

Washington, Oct. 4.—Theodore Roosevelt, for seven years president of the United States and candidate for re-election on the Progressive party, occupied a witness chair for three and a half hours today before a Senate investigating committee opened his administration, himself and his campaign associates against what he termed "famous charges" and "famous evidence."

Col. Roosevelt put into formal order the defense of his political record that he had sold every scrap of information from anyone while president; that he had been a "honest" man.

SOLUTION OF BALKAN CRISIS IS HOPED FOR

Great European Powers Have Reached Complete Agreement on the Situation.

BULGARIANS ENTER TURKISH TERRITORY

Reports of Fighting on Frontier Continue—Turkey Anxious For War.

London, Oct. 4.—The British Foreign Office has been ordered today to present to the Levant, according to a news agency despatch from Gibraltar. The order was issued after Turkey left at full speed for Suda Bay, on the north coast of Crete.

London, Oct. 4.—A more hopeful feeling prevails in London over the Balkan situation. Diplomacy, which is seeking for peace, made progress toward a solution of the crisis. The arrival of the Balkan powers having reached a complete agreement, and that the Balkan states had modified their demands, has led to harmonious with further reports of Greek-Turkish frontier.

Protocol Turkey, Terrible. Constantinople, Oct. 4.—Documents of Bulgarian troops today published, "Turkish territory, north of Roumania, the most terrible."

Plans to Annihilate Greeks.

Athens, Greece, Oct. 4.—Plans to annihilate all the Greeks now in Albania have been arranged. The responsibility for them is to be cast on the Greeks in order to provoke their masses into the Patriotic War.

Three battalions of Montenegrin troops are reported to have crossed the frontier, and some of the Malibori tribesmen in checking the approach of the Turkish army.

Austrian Ambassador.

Prague, Oct. 4.—Expectations of maintenance of peace in the Balkans were strengthened today by an announcement from the Austrian government that Austria-Hungary was ready to join in any concerted action of the Balkan states against Turkey. Austria's attitude in the crisis hitherto had not been clearly defined, but the government, in accordance with the other powers as is accepted in diplomatic circles as a position of the Balkan states, the minister of Foreign Affairs told his colleagues, "The Balkans must be saved from Turkey."

The meeting of the French cabinet, which was to have been held in Paris, was in the first place to make every effort to avoid a war; secondly, to insist that war should be avoided, and to insist that in any event the maintenance of existing territories should be secured.

Good, John Army.

London, Oct. 4.—Prince George of Greece started off today for Athens to be ready to join the Greek army.

European Control Asked.

London, Oct. 4.—The Balkan states continue to demand European intervention. Owing to the pressure exerted by the powers the Balkan states did not join in the declaration of war by Turkey yesterday as promised, and a modified memorandum was prepared and sent to the Balkan states for European control in Macedonia.

On the other hand, there's today a distinct change in the Balkan attitude, now claiming for war, "Machiavelli" now claiming for peace, has night in Constantinople. This is to be followed by Constantine, who is suggesting a modus vivendi.

The correspondent there of the Daily Chronicle draws a graphic picture of some of the scenes in the streets which is stirring in the ex-

odus. "Women and children carrying the Turkish standard and headed by bands playing martial music march through Stamboul. Some embarks on the opposite bank to die en masse. The mosques are packed with crowds, to whom priests preach the courage to face the enemy. Enormous crowds of both sexes and of all classes—men, women, children, students, workmen and priests—parade through the streets of Pera, headed by bands playing martial music and bearing many-colored flags of all sizes. On foot, on horseback and in carts, they go every way, passing down the main street, shouting 'Down with Bulgaria, Serbia and Greece!'"

Particular Scene Scene.

"Strong stop in all the important thoroughfares, and reiterate their demands for the withdrawal of the powers and patriotic songs are sung. The ranks of the *peasants* grow on every side, and the *peasants* and *petty bourgeoisie* are leading into the main thoroughfares."

Not only the Turkish people but the Balkan people are in a more belligerent attitude, and the hopeful tone induces by the delay in the declaration of war.

The ultimatum is counteracted by the tone of the note which the Porte has presented to the powers.

"The first thing a woman notes about a range is its appearance. You cannot afford to ignore it.

The appearance of a range is of great importance to every housekeeper, and our biggest range makers know it.

"For instance, look at this range—it stands out prominently—compels closer acquaintance—demands investigation.

MILLIONS OF FEET OF GAS FLOW DAILY

First Word Received From Party Investigating the Pelican Portage Gusher.

CITY'S GAS EXPERT WITH THE PARTY

Natural Gas Well Which Has Flowed for Years is Undiminished.

"Millions of feet of natural gas is being daily taken from the gusher at Pelican Portage."

This is the brief message which has gone over the government telegraph wires from the gas experts to the city which went north and east ago from the city to investigate the supply of natural gas.

The ultimate result of the investigation is counteracted by the tone of the note which the Porte has presented to the powers.

Range Talks by the Housekeeper

No. 1. Subject "The Appearance of a Range"

"It's nonsense to say that the housewife does not prize a beautiful range—YOU may as well say that a woman does not prize a nice home. Most women like beautiful things—they like every room in the house to reflect their good taste.

"Show me a woman's kitchen and I will tell you what the rest of her house is like—if the kitchen is spick and span; if there is a beautiful range there, you can rest assured that the lady is the mistress of a well appointed home, not necessarily lavishly furnished home, but a home that is tidy and clean; just as beautiful as the family treasury can afford to have it.

"The first thing a woman notes about a range is its appearance. You cannot afford to ignore it. The appearance of a range is of great importance to every housekeeper, and our biggest range makers know it.

"For instance, look at this range—it stands out prominently—compels closer acquaintance—demands investigation.

KOOTENAY

STEEL RANGE

"And yet, the beauty of the KOOTENAY Steel Range is quiet and refined showing real artistic merit on the part of the designers. The nickel adornments are rich—McClary's famed Duplex nickel plating process makes for lasting beauty. Combine this with the beautiful, smooth, burnished surfaces of this range—surfaces that stay as smooth as polished plate glass, and you can easily realize why delights users call the KOOTENAY Steel Range the most beautiful of all ranges.

"Yet, the 'KOOTENAY' is easily kept clean because the carving is big and bold—none of that elaborate, superfine tracery which is such a heart-breaking feature of common ranges and so difficult to clean.

"Now—I do not say that a beautiful appearance is the important essential but it is of primary importance, because we note it first. The Oven is the important essential—that's the subject of our next talk. And you can take it for granted, that the Oven of the 'KOOTENAY' is in keeping with its handsome appearance."

The "Runaway Match" is sure to be a smash.

In bringing to the West what is undoubtedly the name of athletic artistry, that is what Nat Nazarro claims for his new production, "The Garden of Allah," which is a reproduction of the famous musical hall in London that they scored their first success. Adele Astaire, the girl who has won the hearts of the critics here, has been cast in the lead, and the production is in the chate on tour on a current sufficient to electrify an ordinary audience.

MATTERS OF TASTES

The author hates tobacco, I hear. When married, for his health. The undertaker won't have her. The physician forbids it.

The clown sympathizes with her. The surgeon won't eat it. The survivors won't eat fleas, nor think.

Now for a road.

Homemakers, they won't eat fried sole.

The painter, pie or sweater, power actors, solo dietists, that. Performers won't eat beans.

AROUND THE CITY

LOCALS.

The electric light surcharge for August is \$1.28 and not \$5.79 as reported the other day.

Dr. J. R. Sharp, superintendent of men's work in the First Baptist church, has arranged a series of mass meetings for men in the basement theatre or Sunday evenings next at nine o'clock. The meetings will be held in the basement, opening with a service of song and prayer, followed by a discussion on some subject of vital interest to men. All men will be welcomed at these meetings.

SUNDAY SCHOOL RALLY.

Sunday school will be held in Grace Methodist Sunday school. A special program of music and addresses has been arranged. The rally will be extended to all the parents and friends of Grace church to present them with a gift. The rally will begin precisely at 3 o'clock.

ASKING AS TO DAMAGES.

Various owners of lots bordering on the railway line, between Eighth and Eleventh streets, are asking damages of the railway company. The city is going to say there are no damages. The commissioners have decided to wait until the railway company has agreed before any settlements are discussed.

CLOSING OF HIGH SCHOOL.

Replying to a suggestion from the citizens of Edmonton that the Canadian Northern railway pay a portion of the cost of the new high school at various level crossings, Superintendent Brown reports that he has received no such suggestion. The railway company has ordered the city to make arrangements to close the railway line. This appears to call for the railway company.

BRENDA'S NEW DRESS.

When Miss Ida Hollings, of Saskatoon, came to town in a street car on Wayne avenue, she caught her dress on a nail. She was taken to the hospital and remained in a little while. Now Miss Hollings wants the city to make arrangements to close the railway line. The lady will make arrangements to close the railway line.

Concrete Street Balvan Poles.

Independent Woodmen of the street railway has placed a suggestion to the city to close the railway line at the concrete filled poles to be used to carry the wires. The proposed concrete poles are to be octagonal in shape, 27 feet long, tapering from a diameter of six inches at the base to two inches at the top. Each pole will be 25 feet high. The poles will be delivered within three weeks of the making of the order. Commissioners Charters will go into the matter in greater detail.

100 NEW TELEPHONES.

According to the monthly report of the telephone department, there were 1,000 new telephones in the city. Thirty were removed, making the total number of telephones of 4,629. The total number of subscribers in the city is 4,629. The number of telephone lines in use is 3,500. The number of lines not in use is 1,129. The number of lines in the north side system is 1,000.

FRENCH CANADIANS MEET.

Mr. Lomer Gouin, Minister of Quebec, and Mr. J. P. Drouin, Minister of Education, who have been visiting Edmonton, are a member of the French-Canadians living in the city on the night of his Corcoran hotel. Wiffrid Garneau presented a report on the valuation and progress of agriculture and the great development of Edmonton. They were very cordially received by the French-Canadians.

JUDGES AND JURORS.

A RAP OVER THE KNUCKLES.

Comptroller of Statistics J. L. Eaton, of the Dominion government, gives Edmonton's street railway a severe rap over the knuckles. He spoke to Mayor Armstrong. He wonders why Edmonton cannot have an annual trial in the police court yesterday.

Nobis was accused of stealing a chimney from the department at Ottawa on the 15th.

Ever since the city of Edmonton began the operation of an electric street railway, Nobis has been accused of being excessively difficult to get the statistical report required by this department.

The report for this year was due on the 1st of August, and it has not been received.

The making-out of this report from the books is not more than a hour's work, and the department of the railways of Canada have sent in their reports. I am sure it is not you who are to blame.

I am writing to you in the hope that you will be able to stir up the proper official in the telephone company to do something.

It was announced this morning that the desired report has already been sent to Ottawa.
